CALL FOR PAPERS

The 6th International Multi-Disciplinary Conference on Cognitive Methods in Situation Awareness and Decision Support

The CogSIMA conference series provides an annual venue for presenting multidisciplinary research on complex heterogeneous dynamical systems – of interacting humans, machines, computer agents and/or networks – whose individual and/or collective behavior depends on their situation awareness.

CogSIMA CONFERENCES

are aimed at researchers and practitioners from academia, industry and government, with a wide variety of backgrounds and experience including computer science, human factors, cognitive science, modeling & simulation, robotics, and systems engineering.
